

WENDELBO

Handcrafted elegance brought
to life through international
design and exquisite quality

Company

We have been passionate
about upholstery since 1955

Handcrafted elegance

Wendelbo is rooted in the passion for high-end furniture design and production.

With more than 60 years' experience with inhouse production, we ensure that our designs reach the maximum comfort and quality level.

Our ambition is to create outstanding furniture with an elegant international design language, character and personality.

You will know our designs by the *handcrafted elegance*

Upholstered by hand and by heart

With our own Wendelbo production sites and facilities, we create upholstered designs by hand that shine through in their aesthetic honesty, high quality and elegant detailing.

When approaching the process of Kite, designer Jonas Wagell sought to create a sofa collection with timeless aesthetics and luxurious dimensions. Throughout the creation of Kite, Wendelbo's longstanding expertise within upholstery and textile craftsmanship helped the designer bring an abundance of character into the design through understated details.

Adding to that, the designer's fondness for free-standing design is reflected in the carefully tailored look of the upholstered panels on the sofa's back.

Working from the idea of Kite fitting into a multitude of spaces via its configurable design, Wagell created a series of designs that span across armchairs and sofas to grand corner configurations.

In essence, the Kite Lounge Sofa is about expressing a lot of ideas yet without making much noise.

Designed with timeless luxury in mind

COVER

Fabric or leather.

STRUCTURE PADDING

High resilient, polyurethane foam, with dacron padding.

BACK CUSHION

50/50 feather and ball fiber in downproof cambric divided into channels.

LEGS

FSC certified solid oak, black stained.

STRUCTURE INTERIOR

Frame made of FSC certified solid wood, MDF and steel, with webbing spring system.

SEAT CUSHION

High resilient, variable density, polyurethane foam with 50/50 feather and ball fiber top in downproof cambric divided into channels.
